

To our suppliers and business partners

Ballerup June 2021

A refrigeration Nestor says goodbye to H. Jessen Jørgensen A/S

After more than 40 impressive and successful years of employment in H. Jessen Jørgensen A/S, and a solid part of the Danish Ref. business, our excellent colleague and Sales & Technical Manager Jan Lund Sørensen has decided to retire.

Jan's decision of retirement has been made in order to focus more on other important things like family, leisure time and hobbies.

It is with great respect and understanding I received the information from Jan, but of course also with some sort of "sadness".

Jan is not just Jan! No, he is one of the few refrigeration people who really has left an imprint on the Danish Ref. business. Not just because of his general Ref. competencies, but even more because he always has been a pioneer in exploring new Ref. technologies, innovation and creative Ref. solutions. Take CO₂ for cooling as an example, where Jan has been a part of that journey in Denmark from the very beginning.

Jan will have his last working day at H. Jessen Jørgensen A/S the 30th of July 2021.

I think all of you, our great suppliers and partners have met Jan and experienced his great passion for new products and technical innovation. He has always been 100% dedicated to his work and to negotiate the most competitive package for H. Jessen Jørgensen A/S!

We aim to salute Jan with a farewell reception the 10th of September, where you all are welcome to say goodbye to Jan in person, of course if Corona restrictions allows it at that time. The invitation is already in the making.

At the moment we are searching for Jan Lund's successor, and the rest of H. Jessen Jørgensen A/S technical team are already in full activity to take over some of Jan's responsibilities, until his replacement is found.

I/we will of course keep you informed during the process, and if you have questions or need other information, please feel free to contact either your local contact, our Regional Sales Manager Kim Kirkegaard or myself.

We hope to see you soon and we are looking forward to continuing our great business relationship and cooperation. See you at the reception.

Best regards

H. Jessen Jørgensen A/S

Claus Bo Jacobsen
